Affinsys AI Pvt. Ltd. Internship Job Details

Company Name	Affinsys AI Pvt. Ltd.
Company Website	http://www.bankbuddy.ai/ , http://www.affinsys.com/
Company Domain	IT & ITES
Job Role	Software Engineer - Implementation Team
Job Description	Performs applications development tasks involving complex business, mathematical, and algorithmic problems. Responsible for development, implementation, and support of end-to-end modules, including user interface, business logic, and database layers. Assists in testing, documentation, and modification throughout the software development life cycle. Analyzes, troubleshoots, and optimizes code. Participates in requirements gathering and produces technical documentation as needed.
Skill Set	Strong Python coding skills, knowledge of databases and XML/Rest APIs, efficient logic design and development, expertise with shell programming, and understanding of the Linux environment.

Amazon AISPL Cloud Support Associate Job Details

Company Name	Amazon Internet Services Pvt. Ltd. (AISPL)
Company Website	https://aws.amazon.com/
Company Domain	IT & ITES
Job Role	Cloud Support Associate
Job Description	Assist a global list of companies utilizing AWS services for mission-critical applications. Work directly with engineering teams to develop new capabilities. Apply advanced troubleshooting techniques, drive customer communication during critical events, and interact with global technologists to resolve issues. Opportunities for career development in various roles within the support team.
Skill Set	Experience in Linux/Windows Systems administration, Database design and optimization, BigData analysis, Network administration, and Dev-ops. Programming/scripting experience in Java, Perl, Ruby, C#, PHP. Basic knowledge of OS concepts, networking (TCP/IP, DNS), cloud computing, and strong communication and troubleshooting skills.

Software Developer Intern - AVEVA

Field	Details
Company Name	AVEVA
Company Website	https://www.aveva.com/en/
Company Domain	IT & ITES
Job Role	Software Developer Intern
Job Description	Work alongside experienced software developers on small teams, learning Agile development methodologies, designing, coding, testing, and supporting software products.
Skill Set	Software development experience in C++, C#, HTML/JavaScript, strong problem-solving skills, creativity in software engineering applications.

Software Developer Graduate - AVEVA

Field	Details
Company Name	AVEVA
Company Website	https://www.aveva.com/en/
Company Domain	IT & ITES
Job Role	Software Developer Graduate
Job Description	Develop applications using cutting-edge technologies such as .Net Core, Microservices, Node, Python, React, Angular, SQL, Analytics, and Machine Learning, ensuring they meet functional and non-functional requirements.
Skill Set	Strong analytical skills, knowledge of Agile and Waterfall methodologies, experience in problem-solving, software development lifecycle, customer-focused approach.

Field	Details
Company Name	AstraZeneca India Pvt. Ltd.
Company Website	N/A
Company Domain	Healthcare & Pharma
Job Role	Statistical Programming - Biometric
Job Description	Support statistical programming in biometrics, analyze data sets, perform data cleaning, and statistical analysis for healthcare and pharmaceutical projects.
Skill Set	Statistical programming, data analysis, strong analytical skills, proficiency in programming languages such as Python or R.

Field	Details
Company Name	Ather Energy
Company Website	http://www.atherenergy.com/
Company Domain	Automobile
Job Role	Controls Engineer
Job Description	Develop algorithms for Motor Control, Battery Management Systems, and Vehicle Controls. Focus on signal processing, estimator design, and control system frameworks like LQR and Pole-Placement.
Skill Set	Engineering fundamentals, mathematics, hardware experience, simulation methods, and exposure to academic projects in controls and signal processing.

Field	Details
Company Name	Ather Energy
Company Website	http://www.atherenergy.com/
Company Domain	Automobile
Job Role	Graduate Engineer Trainee - Electronics
Job Description	Responsible for building electronic components such as Motor Controllers, Chargers, Dashboards, and Battery Management Systems. Involve in system integration and problem-solving.
Skill Set	Strong fundamentals in electronics, hands-on approach, ownership, and problem-solving abilities.

Field	Details
Company Name	Ather Energy
Company Website	http://www.atherenergy.com/
Company Domain	Automobile
Job Role	Graduate Engineer Trainee - Mechanical
Job Description	Design mechanical subsystems, conduct simulations, testing, and troubleshooting vehicle components. Work on structural, thermal, noise & vibration design.
Skill Set	Strong engineering fundamentals, problem-solving abilities, and experience with simulations and testing of mechanical components.

Engineer Trainee - Baxter

Field	Details
Company Name	Baxter
Company Website	https://www.baxter.com/
Company Domain	Healthcare & Pharma
Job Role	Engineer Trainee - Software
Job Description	Responsible for programming a feature or a small feature set, applying SDLC methodologies, Agile/XP, CI, Software and Product Security, Scalability, and Testing Techniques. Participate in continuous improvement activities, ensure quality standards, and take ownership of small tasks.
Skill Set	Strong expertise in Systems Software Programming (Java, C/C++). Understanding of Computer Science fundamentals, including object-oriented design, operating systems, algorithms, data structures, and complexity analysis.

Digital Intern - BT Group

Field	Details
Company Name	BT Group
Company Website	https://www.bt.com/about
Company Domain	Telecom
Job Role	Digital Intern
Job Description	Supports the execution of software engineering strategy, implementing technical solutions, resolving inter-system issues, contributing to technical decisions, and maintaining high-quality software development practices.
Skill Set	Troubleshooting, Agile Development, Database Design, Debugging, Programming/Scripting, Microservices/Service Oriented Architecture, Cloud Computing, Software Testing, Application Development, Software Development Lifecycle.

Software Engineer Intern - Cloudera

Field	Details
Company Name	Cloudera
Company Website	https://www.cloudera.com/
Company Domain	IT & ITES
Job Role	Software Engineer Intern
Job Description	Design and develop software products across various platforms, maintain and improve performance, test and optimize functionality, collaborate with product and customer teams to translate requirements into technical solutions.
Skill Set	Strong coding skills (C++, Java, Python), knowledge of UNIX/Linux or Windows environments, understanding of TCP/IP, Network Programming, Operating Systems, experience contributing to open source projects, strong written and verbal communication skills.

Engineering Intern - Cohesity

Field	Details
Company Name	Cohesity
Company Website	https://www.cohesity.com/
Company Domain	IT & ITES
Job Role	Engineering Intern
Job Description	Work alongside the engineering team to build product features, solve real-world problems at scale, and develop high-quality software while learning software development processes.
Skill Set	Programming in C, C++, Go, Java, or Angular/JS; strong understanding of Data Structures, Algorithms, and Systems Design; experience with Unix/Linux environments, distributed systems, machine learning, asynchronous programming, networking, security software development.

Software Development & QA Intern - Commvault

Field	Details	
Company Name	Commvault	
Company Website	https://www.commvault.com/	
Company Domain	IT & ITES	
Job Role	Software Development & Software Quality Assurance/Automation Intern	
Job Description	Develop and analyze enterprise applications, network protocols, filesystem storage, and cloud/virtualization systems. Contribute to software engineering, including design, development, testing, and debugging.	
Skill Set	Proficiency in C/C++/C#, Python for automation, debugging, network analysis, OS internals, database fundamentals, full-stack development, and software testing.	

Associate Software Engineer - Energy Exemplar

Field	Details
Company Name	Energy Exemplar
Company Website	https://www.energyexemplar.com/
Company Domain	IT & ITES, Power/Oil/Energy, R & D
Job Role	Associate Software Engineer
Job Description	Develop and optimize simulation, analytics, and energy transformation software. Work on IT & Energy domain-related applications, collaborating with technical teams to enhance product features.
Skill Set	Software development, simulation modeling, data analytics, programming in relevant languages, problem-solving, and system optimization.

Software Development & IT Services - Eurofins IT Delivery Center

Field	Details
Company Name	Eurofins IT Delivery Center
Company Website	https://www.eurofins.in/eitsi
Company Domain	IT & ITES
Job Role	Software Development & IT Services
Job Description	Software development and management services, functional and automation testing, application re-engineering, migration, maintenance, mobile enablement, performance engineering, and UX/UI engineering.
Skill Set	Software development, testing (functional and automation), legacy modernization, network management, database management, IT infrastructure services, and business process outsourcing.

Intern - Evam Labs

Field	Details
Company Name	Evam Labs
Company Website	https://www.evam.ai/
Company Domain	IT & ITES, AI & Data Science
Job Role	Data Science, Data Engineering, Full Stack, UI Intern
Job Description	Work on real-world AI projects, contribute to data science, data engineering, full-stack development, and UI development. Participate in coding, testing, debugging, research, and collaboration with multi-functional teams.
Skill Set	Programming in C/C++, Java, Python, Scala; knowledge of machine learning and GenAI; strong problem-solving, research skills, and collaboration abilities.

EEDP - GE HealthCare

Field	Details
Company Name	GE HealthCare
Company Website	https://www.gehealthcare.com/
Company Domain	Healthcare & Pharma, IT & ITES
Job Role	EEDP (Early Career Development Program)
Job Description	Develop and work on engineering solutions in the healthcare and IT domain. Participate in technical and innovation-driven projects with mentorship and structured training.
Skill Set	Engineering fundamentals, software development, problem-solving, project collaboration, and innovation in healthcare technology solutions.

Associate - Hourglass Research

Field	Details
Company Name	Hourglass Research
Company Website	https://www.hourglassresearch.com/
Company Domain	R & D, IT & ITES, Semiconductor, Telecom
Job Role	Associate - Patent Drafting/Search/Licensing
Job Description	Work with leading technology corporations to evaluate inventions, conduct patent searches, draft US patent applications, assist in patent prosecution, and participate in IP strategy development. Conduct patent analytics and licensing activities, analyze technical information, and interact with technology experts.
Skill Set	Understanding of VLSI, Semiconductor, Emerging Tech (EVs, AI, ML, Blockchain, DeepTech), Telecom (LTE/4G+), excellent written and verbal communication, independent thinking, and problem-solving.

Application Engineer - IDFC FIRST Bank

Field	Details
Company Name	IDFC FIRST Bank
Company Website	https://www.idfcfirstbank.com/
Company Domain	Banking/Financial Services/Insurance, IT & ITES
Job Role	Application Engineer
Job Description	Manage the technology development needs for assigned banking platforms and applications. Work in an AGILE environment, developing and integrating technologies like Golang, microservices, data engineering, APIs, Kubernetes, DevOps, and cloud infrastructure.
Skill Set	Proficiency in Golang, microservices architecture, data engineering, API development, Kubernetes, DevOps tools (Docker, Ansible, Chef, Terraform), SaaS/IaaS platforms, Agile methodologies.

Future Technology Leadership Programme - IG Group

Field	Details
Company Name	IG Group
Company Website	https://www.ig.com/
Company Domain	IT & ITES, FinTech
Job Role	Future Technology Leadership Programme
Job Description	Participate in a 24-month rotational program across key technology and business areas, gaining experience in engineering best practices, full software development lifecycle, stakeholder management, and technology strategy.
Skill Set	Proficiency in programming (Java preferred but not essential), strong problem-solving skills, collaboration and communication, ability to handle undefined problems, innovation mindset, and adaptability to industry trends.

Android Intern - Jar

Field	Details
Company Name	Jar
Company Website	https://myjar.app/blog/engineering/
Company Domain	IT & ITES, FinTech
Job Role	Android Intern
Job Description	Develop and optimize mobile applications using Kotlin, Jetpack Compose, and MVVM architecture. Collaborate with engineers to enhance the Android tech stack.
Skill Set	Kotlin, Jetpack Compose, LiveData, Flows, MVVM architecture, Dependency Injection (Hilt), multimodular app development.

Data Analyst Intern - Jar

Field	Details
Company Name	Jar
Company Website	https://myjar.app/blog/engineering/
Company Domain	IT & ITES, FinTech
Job Role	Data Analyst Intern
Job Description	Analyze business data, develop reports, optimize services, collaborate with teams to generate insights, and assist in setting up success metrics for products/features.
Skill Set	Python (Pandas, NumPy, Matplotlib, Scikit-Learn), data visualization (Tableau, Power BI), analytical skills, report writing, Web & Backend Data Analytics.

iOS Intern - Jar

Field	Details
Company Name	Jar
Company Website	https://myjar.app/blog/engineering/
Company Domain	IT & ITES, FinTech
Job Role	iOS Intern
Job Description	Develop and maintain iOS applications using Swift, Swift UI, and MVVM architecture. Collaborate on meaningful projects and contribute to mobile development.
Skill Set	Swift, Swift UI, Combine, MVVM architecture, Dependency Injection, Kotlin Multiplatform.

Backend Intern - Jar

Field	Details
Company Name	Jar
Company Website	https://myjar.app/blog/engineering/
Company Domain	IT & ITES, FinTech
Job Role	Backend Intern
Job Description	Write clean, efficient backend code in Java/Spring Boot, integrate APIs, ensure performance and scalability, and collaborate with QA and cross-functional teams.
Skill Set	Java, Spring Boot, SQL, NoSQL, object-oriented programming, API integration, problem-solving.

DevOps Intern - Juniper Networks

Field	Details
Company Name	Juniper Networks
Company Website	https://www.juniper.net/
Company Domain	IT & ITES, Cloud Computing, Security
Job Role	DevOps Intern
Job Description	Support a cloud DevOps team in architecture, implementation, automation, security, and deployment of cloud-hosted security products. Aim for zero downtime in SaaS services.
Skill Set	Python or Go, Grafana, Prometheus, Thanos, Kibana, Linux system administration, AWS (EC2, RDS, ELB, S3), Microservices, Kubernetes, security hardening, network troubleshooting.

COO Intern - Juniper Networks

Field	Details
Company Name	Juniper Networks
Company Website	https://www.juniper.net/
Company Domain	IT & ITES, Networking, AI, Security
Job Role	COO Intern
Job Description	Gain hands-on experience in Cloud Engineering, Routing & Switching, AI, Security, Operating Systems, Analytics, and Quality Engineering. Work on real-life projects with mentorship from industry experts.
Skill Set	C, C++, Python, problem-solving, teamwork, interpersonal skills, exposure to software engineering tasks, cloud and networking technologies.

Software Development Engineer - Komprise

Field	Details
Company Name	Komprise
Company Website	https://www.komprise.com/
Company Domain	IT & ITES, Data Management, Cloud Computing
Job Role	Software Development Engineer
Job Description	Design and develop solutions for managing data across public and hybrid cloud environments. Build solutions for cloud-native data, define component architecture, and optimize performance and scalability.
Skill Set	Cloud computing, data management, hybrid cloud solutions, software architecture, scalability optimization, customer interaction and technical problem-solving.

Software Test Engineer - Komprise

Field	Details
Company Name	Komprise
Company Website	https://www.komprise.com/
Company Domain	IT & ITES, Data Management, Cloud Computing
Job Role	Software Test Engineer
Job Description	Ensure product quality through rigorous testing, develop test automation strategies, review engineering artifacts, and propose quality engineering techniques and processes.
Skill Set	Test automation, scripting, quality engineering, Agile testing methodologies, programming, evaluating and improving quality assurance processes.

Business Analyst - Meesho

Field	Details
Company Name	Meesho
Company Website	https://www.meesho.io/
Company Domain	E-Commerce, IT & ITES
Job Role	Business Analyst
Job Description	Analyze data to drive insights and business strategies, optimize reporting tools, conduct demand and supply data optimization, and support strategic planning.
Skill Set	Advanced Excel, SQL, Python (preferred), statistical analysis, problem-solving, business intelligence, and data visualization.

Software Development Engineer I - Meesho

Field	Details
Company Name	Meesho
Company Website	https://www.meesho.io/
Company Domain	E-Commerce, IT & ITES
Job Role	Software Development Engineer I
Job Description	Develop high-performance applications, work on new feature development, leverage cutting-edge technologies, and optimize scalable systems for e-commerce solutions.
Skill Set	Java/Python/C++, data structures & algorithms, software development, system design, performance optimization, problem-solving.

AI & Automation Intern - MiQ

Field	Details
Company Name	MiQ
Company Website	https://www.wearemiq.com/
Company Domain	IT & ITES, AI & Automation, Marketing Analytics
Job Role	AI & Automation Intern
Job Description	Develop AI-driven automation solutions for marketing intelligence, campaign optimizations, custom reporting, and strategic business growth using advanced AI technologies.
Skill Set	Python, SQL, Machine Learning, Data Science, AI models, Big Data (Databricks/Spark), quantitative problem-solving, business analytics.

Intern Analyst - MiQ

Field	Details
Company Name	MiQ
Company Website	https://www.wearemiq.com/
Company Domain	IT & ITES, Data Analytics, Marketing Intelligence
Job Role	Intern Analyst
Job Description	Analyze marketing campaign data, optimize campaign performance, generate actionable insights, develop custom reporting solutions, and collaborate with teams for business intelligence.
Skill Set	SQL, Python/R, Big Data tools (Qubole, Databricks, Spark), Excel, PowerPoint, data analysis, problem-solving, reporting and insights generation.

Software Engineer - Natwest

Field	Details
Company Name	Natwest
Company Website	https://www.natwest.com/
Company Domain	Banking/Financial Services/Insurance, IT & ITES
Job Role	Software Engineer
Job Description	Design, develop, test, and maintain applications and services in financial technology. Develop high-performance, high-availability applications and automate build, release testing, and deployment processes.
Skill Set	Software development, automation, unit & integration testing, financial services domain knowledge, analytical skills, willingness to learn and adapt.

Intern Trainee - Natwest

Field	Details
Company Name	Natwest
Company Website	https://www.natwest.com/
Company Domain	Banking/Financial Services/Insurance, IT & ITES
Job Role	Intern Trainee
Job Description	Analyze requirements, perform impact analysis, develop and test applications, support implementation activities, and enable technical knowledge sharing.
Skill Set	Software engineering principles, application design and development, analytical thinking, technical knowledge in financial services, and problem-solving skills.

Software Engineer Intern - Nike

Field	Details
Company Name	Nike
Company Website	https://www.nike.com/
Company Domain	IT & ITES, Consumer Goods, Retail
Job Role	Software Engineer Intern
Job Description	Support various enterprise functions, develop and implement web/mobile applications, and collaborate with business and technical teams to innovate digital technology solutions.
Skill Set	Java, Python, React, Swift, JavaScript, cloud environments (AWS, Azure, GCE), relational and non-relational databases (Oracle, MS-SQL, MongoDB, Cassandra), SAP, Warehouse Management Systems (WMS).

Software Development Engineer - PhonePe

Field	Details
Company Name	PhonePe
Company Website	https://www.phonepe.com/
Company Domain	IT & ITES, FinTech
Job Role	Software Development Engineer
Job Description	Develop scalable, high-performance applications, write maintainable and unit-tested code, design APIs, and collaborate across teams to enhance digital payments solutions.
Skill Set	Java, C, C++, MySQL, NoSQL (HBase, Elasticsearch, Aerospike), object-oriented design, design patterns, software architecture, and full lifecycle development on Linux platforms.

Embedded MCU Firmware Engineer - Pixcellence Technologies

Field	Details
Company Name	Pixcellence Technologies
Company Website	http://www.pixcellencetech.com/
Company Domain	IT & ITES, Embedded Systems, Wireless & Video Technology
Job Role	Embedded MCU Firmware Engineer
Job Description	Develop firmware for embedded systems, work on microcontroller architectures, real-time operating systems, and multimedia streaming applications.
Skill Set	C, C++, Python, ARM microcontrollers, RTOS, SPI, I2C, UART, Wi-Fi, Bluetooth, Image Signal Processing, debugging tools (JTAG, oscilloscopes).

Embedded Product Test Engineer - Pixcellence Technologies

Field	Details
Company Name	Pixcellence Technologies
Company Website	http://www.pixcellencetech.com/
Company Domain	IT & ITES, Embedded Systems, Wireless & Video Technology
Job Role	Embedded Product Test Engineer
Job Description	Perform testing on embedded systems, automation testing, network testing, GUI testing, and CI/CD pipelines.
Skill Set	Python scripting, Wireshark, Embedded Linux Testing, GUI Testing, CI/CD (Jenkins), Jira, Linux, Test design & defect management.

Embedded Systems Engineer - BSP - Pixcellence Technologies

Field	Details
Company Name	Pixcellence Technologies
Company Website	http://www.pixcellencetech.com/
Company Domain	IT & ITES, Embedded Systems, Wireless & Video Technology
Job Role	Embedded Systems Engineer - BSP
Job Description	Develop board support packages (BSP) for embedded systems, Linux kernel programming, device drivers, and system architecture for embedded devices.
Skill Set	C, C++, Python, Linux Kernel, SPI, I2C, NAND Flash, Wi-Fi, Bluetooth, cross-compilers, Yocto, JIRA, debugging tools.

Hardware Board Design Engineer - Pixcellence Technologies

Field	Details
Company Name	Pixcellence Technologies
Company Website	http://www.pixcellencetech.com/
Company Domain	IT & ITES, Embedded Systems, Hardware Design
Job Role	Hardware Board Design Engineer
Job Description	Design high-speed boards, test hardware designs, perform signal integrity simulations, and define stack-up and routing strategies.
Skill Set	High-speed board design, SoC, DDR2/3, USB, I2C, SPI, UART, EMI/EMC compliance, ORCAD, Altium board design tools.

Multimedia Application Engineer - Pixcellence Technologies

Field	Details
Company Name	Pixcellence Technologies
Company Website	http://www.pixcellencetech.com/
Company Domain	IT & ITES, Embedded Systems, Multimedia Technology
Job Role	Multimedia Application Engineer
Job Description	Develop multimedia streaming applications, work on video codecs, network protocols, and embedded multimedia frameworks.
Skill Set	C, C++, Python, Gstreamer, OpenGL, FFmpeg, H264/H265 codecs, RTSP, TCP/IP, Linux kernel, video processing algorithms.

Python Shell Script Engineer - Pixcellence Technologies

Field	Details
Company Name	Pixcellence Technologies
Company Website	http://www.pixcellencetech.com/
Company Domain	IT & ITES, Embedded Systems, Scripting & Automation
Job Role	Python Shell Script Engineer
Job Description	Develop Python and Shell scripts for automation, CI/CD integration, and wireless communication protocols.
Skill Set	Python, Shell scripting, CI/CD tools, Linux, wireless communication (Wi-Fi, Zigbee, 5G), automation scripting, debugging.

Power R&D Engineer (NCG & Interns) - Renesas

Field	Details
Company Name	Renesas
Company Website	https://www.renesas.com/
Company Domain	Semiconductor, IC Design, Embedded Systems
Job Role	Power R&D Engineer (NCG & Interns)
Job Description	Design, simulate, and validate analog/digital circuits for automotive, industrial, and consumer applications. Develop RTL coding, perform circuit simulations, IC layout design, and work with EDA tools for verification.
Skill Set	VHDL, Verilog, SPICE, Cadence Virtuoso, Synopsys IC Compiler, EDA tools, microcontrollers, FPGAs, PCB layout tools (Altium, Eagle), Python, C/C++, circuit troubleshooting, verification planning, and scripting (Perl, Python, Tcl).

Trainee Engineer - Safran Engineering Services India Pvt. Ltd.

Field	Details
Company Name	Safran Engineering Services India Pvt. Ltd.
Company Website	https://www.safran-group.com/
Company Domain	Engineering, Aerospace, Defense, Manufacturing
Job Role	Trainee Engineer
Job Description	Work on engineering and technology solutions in aviation, space, and defense markets. Design, develop, and analyze high-precision systems for aircraft engines, landing gear, and aerospace equipment.
Skill Set	Mechanical, Electronics & Communication, and Computer Science engineering principles, technical problem-solving, software and hardware analysis, and collaboration in aerospace projects.

Hardware Engineer - Samsung Semiconductor India Research (SSIR)

Field	Details
Company Name	Samsung Semiconductor India Research (SSIR)
Company Website	https://www.samsung.com/semiconductor/
Company Domain	Semiconductor, Hardware Engineering, IT & ITES
Job Role	Hardware Engineer
Job Description	Work on next-generation silicon development, focusing on Analog and Digital design, RTL Design, Design Verification, Physical Design, SoC development, and Memory IP development.
Skill Set	RTL Design, Design Verification, Emulation, Prototyping, DFT, Physical Design, Semiconductor design tools, and signal/image processing.

Software Engineer - Implementation Team - Affinsys AI Pvt. Ltd.

Field	Details
Company Name	Affinsys AI Pvt. Ltd.
Company Website	https://www.affinsys.com/
Company Domain	AI & ITES, FinTech, Enterprise SaaS
Job Role	Software Engineer - Implementation Team
Job Description	Develop and implement AI-driven enterprise SaaS applications, manage user interface, business logic, and database layers, and optimize performance.
Skill Set	Python, Shell scripting, Linux environment, database management, XML/REST APIs, software development lifecycle (SDLC), and troubleshooting.

Software Engineer - Societe Generale Global Solution Centre (SG GSC)

Field	Details
Company Name	Societe Generale Global Solution Centre (SG GSC)
Company Website	https://www.societegenerale.com/
Company Domain	Banking/Financial Services/Insurance, IT & ITES
Job Role	Software Engineer
Job Description	Develop innovative solutions in banking and finance, work with modern technologies such as AI, ML, Data Engineering, DevOps, and build scalable applications using Java, Python, .NET, and front-end technologies like JavaScript and Angular.
Skill Set	Java, Python, .NET, JavaScript, Angular, AI/ML, DevOps, Data Engineering, software development best practices, problem-solving, and system optimization.

Software Development Engineer - Singularity Dynamics Pvt Ltd.

Field	Details
Company Name	Singularity Dynamics Pvt Ltd.
Company Website	http://www.singularitydynamics.co/
Company Domain	Semiconductor, IT & ITES, High-Performance Computing
Job Role	Software Development Engineer
Job Description	Develop C++ based high-performance software applications for semiconductor and computing applications, focusing on efficiency and scalability.
Skill Set	C++, High-Performance Computing, Software Development, Algorithms, System Optimization.

Software Engineer (Java) - Tejas Networks

Field	Details
Company Name	Tejas Networks
Company Website	https://www.tejasnetworks.com/
Company Domain	Telecom, IT & ITES, Optical Networking
Job Role	Software Engineer (Java)
Job Description	Develop network management solutions for telecom service providers using Java. Work on SDN, middleware, relational databases, and NMS/EMS systems.
Skill Set	Java, Object-Oriented Analysis, Data Structures, Algorithms, Hibernate, ActiveMQ, MySQL, SDN controllers (ODL/ONOS), NMS/EMS domain knowledge.

Hardware Engineer - Tejas Networks

Field	Details
Company Name	Tejas Networks
Company Website	https://www.tejasnetworks.com/
Company Domain	Telecom, IT & ITES, Optical Networking, Hardware Engineering
Job Role	Hardware Engineer
Job Description	Design and develop high-speed boards for telecom applications. Work on embedded processors, FPGAs, optical components, and board design for telecom solutions.
Skill Set	Electronic circuits, Digital/Analog design, FPGA design, Board design, VHDL/Verilog, Embedded processors, High-speed signal processing.

Software Engineer (C/C++) - Tejas Networks

Field	Details
Company Name	Tejas Networks
Company Website	https://www.tejasnetworks.com/
Company Domain	Telecom, IT & ITES, Optical Networking, Embedded Systems
Job Role	Software Engineer (C/C++)
Job Description	Develop telecom networking products using C/C++. Work on data structures, algorithms, networking protocols (TCP/IP), and embedded systems.
Skill Set	C/C++, Perl, Data Structures, Operating Systems, TCP/IP Networking, Embedded Linux, Telecom networking protocols (GPON, OTN, TDM, Packet Switching).

Data and AI Consultant - Thorogood Associates

Field	Details
Company Name	Thorogood Associates
Company Website	https://www.thorogood.com/
Company Domain	IT & ITES, Data Analytics, AI & Consulting
Job Role	Data and AI Consultant
Job Description	Provide data, AI, and analytics solutions to global clients. Work on the complete project lifecycle including analysis, design, development, testing, implementation, and support.
Skill Set	Problem-solving, analytical skills, communication skills, teamwork, business consulting, data management technologies, AI & ML solutions, international project experience.

Analyst - Tredence

Field	Details
Company Name	Tredence
Company Website	https://www.tredence.com/
Company Domain	IT & ITES, Data Science, AI & Analytics
Job Role	Analyst
Job Description	Work on data services, data engineering, and AI/ML applications to solve complex business problems. Develop and optimize cloud-based analytical solutions.
Skill Set	SQL, Python, Data Engineering, AI/ML, Cloud Technologies, Agile CI/CD, Business Problem-Solving.

Associate Data Scientist - Tredence

Field	Details
Company Name	Tredence
Company Website	https://www.tredence.com/
Company Domain	IT & ITES, Data Science, AI & Analytics
Job Role	Associate Data Scientist
Job Description	Develop and implement AI/ML models, analyze large datasets, and provide actionable insights. Collaborate with business teams to solve high-impact data-driven problems.
Skill Set	Python, R, SQL, NumPy, Pandas, Scikit-learn, Deep Learning, Machine Learning, Computer Vision, NLP, Predictive Analytics, Data Modeling.

Software Engineer - Typeface

Field	Details
Company Name	Typeface
Company Website	https://www.typeface.ai/
Company Domain	IT & ITES, AI & SaaS, Generative AI
Job Role	Software Engineer
Job Description	Develop and deliver innovative web applications and cloud services leveraging Generative AI. Collaborate with cross-functional teams, prototype new solutions, and define best practices for web applications.
Skill Set	JavaScript frameworks, Java, Python, Cloud platforms (AWS, Azure, GCP), problem-solving, GenAI/LLMs, Agile methodologies, software development best practices.

Software Developer - Vyapar Apps

Field	Details
Company Name	Simply Vyapar Apps Pvt. Ltd. (Vyapar Apps)
Company Website	https://vyaparapp.in/
Company Domain	IT & ITES, FinTech, Business Accounting Software
Job Role	Software Developer
Job Description	Develop features for Vyapar applications, translate designs into high-quality code, build and maintain scalable and high-performance solutions for business accounting.
